Modeling and Analysis in Computational Electromagnetism and Acoustic, Preconditionning techniques, Homogenization, Asymptotic Expansion, Rough Surfaces, Domain Decomposition Method, Scientific Programming

---

Academic Background and Experiences

2012 – 2013 **Post-doctoral** position in the University of Liège (Belgium), in the ACE team, under the supervsion of Christophe Geuzaine,
Study of some preconditioning techniques for Finite Elements Methods and Decomposition of Domain Method.

2007 – 2012 **PhD** from Institut Supérieur de l'Aéronautique et de l'Espace (ISAE), Toulouse, under the supervision of Pierre Borderies (ONERA, Toulouse) and Jean-René Poirier (LAPLACE, Toulouse)
Defended the 22^{nd} March 2012 at SupAéro (ISAE), with the jury composed by : Abderrahmane Bendali, Pierre Borderies, Christophe Bourlier, Christophe Geuzaine, Luc Giraud, Jean-René Poirier, Jean-Yves Suratteau.
Title : *Contribution of the modeling of the electromagnetic scattering by rough surfaces from rigorous methods*

2007 – 2011 **Teaching** in the Department of Electronics and Signal Processing, ENSEEIHT, Toulouse :
– Introduction to the Analysis of Partial Differential Equations *(master level)*,
– Fourier Analysis *(undergraduate level)*,
– Numerical Analysis *(undegraduate level)*,
– Algorithm and Programming in C *(undergraduate. level)*.
I also supervised several students in projects *(Bachelor level)* :
– Study of an equivalent impedance of a rough surface,
– Comparison between plane waves and Gaussian beams in a MoM code,
– Numerical effects of the finitude of surfaces in the spectrum of integral operators.

2006–2007 **Master of Science** (*magna cum laude*) in "ElectroMagnetism and OptoElectronics", Institut National Polytechnique, Toulouse.
Thesis under the surpervision of Andrew Thain (EADS Innovation Works),
Numerical Simulations of antennas on large planes

2005 9 weeks in Dublin City University, Radio and Optical Comm. Lab., under the supervision of Frédéric Surre and Pascal Landais,
Numerical Investigations of Losses in THz waveguides

2004 – 2007 **Engineer degree** in Electronics and Signal Processing, ENSEEIHT, Toulouse.

2001–2004 Preparatory Class for entrance in engineering school, Montpellier.
Personal Project : Modeling of 1D snow avalanche and numerical simulaion by finite difference

Publications

Articles (with peer-review)

- *Integral Equations Physically based Preconditioner for Two Dimensional Electromagnetic Scattering by Rough Surfaces*
  S. Tournier, P. Borderies, J.-R. Poirier
  IEEE Antennas and Propagation, Vol. 59, No. 10, pp. 3764-3774, oct. 2011

- *Modélisation de la diffusion électromagnétique par surfaces rugueuses à partir de méthodes rigoureuses*
  S. Tournier, P. Borderies, J.-R. Poirier
  Revue d'Electricité et Electronique, No. juin 2012,
  (request by the journal for section "Jeunes Chercheurs")

Articles in preparation

- *Homogenization Techniques for Improving Electromagnetic Scattering Computation by Rough Surfaces*
- *Analysis of Homogenization Techniques for Improving Electromagnetic Scattering Computation by Periodic Rough Surfaces : Polarization TM and TE*
- *Analysis of Numerical Performances of Schwarz non-overlapped Domain Decomposition Method applied to band-gap waveguide*

International Conferences (with committee selection)

- **EuroEM 2012**, Toulouse,
  Homogenization Techniques for Improving Electromagnetic Scattering Computation by Dielectric Surfaces, S. Tournier, P. Borderies, J.-R. Poirier
- **AMPERE**[1] **2011**, Toulouse – Best Poster Award
  Analysis of QR-compression Techniques for Improving Electromagnetic Scattering Computation by Periodic Rough Surfaces, S. Tournier, J. Girardin, J.-R. Poirier, P. Borderies
- **PIERS**[2] **2010**, Cambridge,
  Analysis of Homogenization Techniques for Improving Electromagnetic Scattering Computation by Rough Surfaces, S. Tournier, P. Borderies, J.-R. Poirier
- **WAVES**[3] **2009**, Pau,
  A Physically-based Preconditioner for 2D Electromagnetic Rough Surfaces Scattering Problems, S. Tournier, P. Borderies, J.-R. Poirier
- **WAVES 2009**, Pau,
  High order asymptotic expansion for the scattering of fast oscillating periodic surfaces, J.-R. Poirier, A. Bendali, P. Borderies, S. Tournier
- **PIERS 2009**, Beijing,
  Analysis of Performances of a Floquet Mode Preconditioner for Electromagnetic Scattering Computation by Rough Surfaces, S. Tournier, J.-R. Poirier, P. Borderies
- **PIERS 2008**, Hangzhou,
  Use of Numerical Methods for Assessing Validity Domains of the approximations Involved in Electromagnetic Interaction Modeling with vegetation, P. Borderies, J.-R. Poirier, S. Tournier, C. Lauprette, L. Villard, P. Dubois Fernandez, N. Floury

Reviewer for IEEE Antennas and Propagation, IEEE Geoscience and Remote Sensing

Others

Computer skills	`C/C++`, Python, `Fortran`, LaTeX, Matlab/Scilab, `bash` user of GNU/Linux since 1999.
voluntary of GENEPI (from 2004 to 2009) `www.genepi.fr`	Intervention in prison *(teaching, participation to an internal newspaper, sports)*, Organization of events to talk about problems of prison *(intervention in high school, conferences, radio emission)*
participation to Colombbus `www.colombbus.org`	Promotion of computer sciences in junior secondary school using Free Software
Miscellaneous	Mountain (hiking, climbing)
